If someone has died, here is what to do

Take your time. Nothing below has to happen in the first hour, and one phone call to us takes care of almost all of it.

1 Have the death confirmed

Expected, at home: ring the doctor or the palliative care team.

Sudden or unexpected: ring 000.

In hospital or aged care: the staff do this for you.

2 Ring Shane on 0461 543 517

Day or night. Tell him where your loved one is. If they are in a hospital or aged care home, tell the staff it is Ashes to Ashes.

3 We look after everything else

Bringing your loved one into our care, the doctor's certificates, the paperwork, the cremation, registering the death and bringing the ashes home to you.
